

REGAIN SUPPLY CHAIN CONTROL

and find a way back to better profit

Select service overview

We believe that we have a suite of offerings that can assist any organization with their revenue and costs targets.

Transportation Management

Leverage our \$400M managed transportation and supply chain spend to secure reduced rates and improved service. Clients typically secure savings of 17% - 33% on their annual freight spend with our Transportation Management Program.

Logistics Services

If its service to one particular customer or your whole transportation department we can provide the personnel to help you reduce your total supply chain costs including your overhead.

Vendor Audit

We have created a state of the art web-based platform that allows you to not only audit your freight bills but essentially any bill that is tied to a contractual agreement. Let us help you reduce costly errors and duplicate billing from vendors and suppliers.

6 reasons Why You Should Engage With 3PL Links

1

We get results for clients by:

- Reducing their supply chain spend
- Eliminating service failures
- Helping them reach new markets cost effectively

2

We are non-asset based so we can truly develop solutions that fits the client's needs.

3

We provide our customers with the power to leverage our combined \$400M in freight spend in order to enhance transportation services and reduce overall freight costs.

4

We are a global solutions provider working with "best of breed" partners across the globe to provide cost effective supply chain solutions for our customers.

5

We are not a consulting company focused solely on delivering reports and analysis. We provide end-to-end cost effective implemented solutions, which deliver bottom line results.

6

We are not a brokerage company concerned with developing transactional relationships.

Industry Expertise

Our expertise and experience spans across many industries including but not limited to:

- Manufacturing
- Apparel
- Construction
- Automotive
- Retail
- High Tech
- Pharma
- Food and Dairy
